

PRODUCT DATASHEET

MT 250/210 SVM 25-1M8-S1	Stock number: 51347
--------------------------	------------------------

Product name:	Magnetic rod
Type:	MT
Total/magnetic length:	250/210 mm
Material to be separated:	Liquid or dry mixtures
Type of the magnets:	VVM (NdFeB neodymium magnets)
Using:	The device may be situated directly within a material flow, or screwed onto any suitable carrier
Attaching:	1x M8 screw
Material:	Stainless steel DIN 1.4301, EN 10088, ČSN 17240, AISI 304, AKV 7 – chromium nickel austenitic steel, not stabilized (X5CrNi 18-10)
Magnetic induction:	Coat magnetic induction: 6,800 Gs Coat tear-off force: 90 N
Temperature resistance of the magnets:	80°C (maximum working temperature)
Surface treatment:	Polishing – Ra < 0.1µm
Total weight:	1 kg
