

PRODUCT SHEET

Magnetic metallic dirt collector 200x200	Stock number: 52017
--	------------------------

Product name:	Magnetic metallic dirt collector
Plate dimensions:	200 x 200 x 11 mm (7 7/8 x 7 7/8 x 0 7/16 in)
Magnet type:	VVM (Neodymium NdFeB Magnets)
Design:	Collector suspended on chain
Use:	Collection of very fine metallic dirt in open space
Cleaning:	Wipe off metallic dirt with a cloth or paper towel
Mounting:	Steel anchor with hook Type 9KLE10H – ANCHOR LE/G 14/60 M10 + HOOK
Magnetic induction on the coat:	2,850 Gs
Casing tearing force:	18.2 N
Plate material:	PET plastic
Plate colour:	White
Chain material:	Stainless steel DIN 1.4301, EN 10088, (X5CrNi 18-10), ČSN 17240, AISI 304, AKV 7
Magnet temperature resistance:	70 °C (158 °F) – maximum operating temperature
Total weight:	1.5 kg (3.3 lb)
